## Recommended Use

The Cot Cart allows the vertical storage of Community Playthings cots in a space saving and organized manner. It allows easy access of individual cots at any time. Use with the casters for a movable cot storage rack or, without casters, as a stationary rack.

### ⚠ WARNING

▲ Children should not ride or play on the Cot Cart.

### ⚠ CAUTION

▲ This cart is designed for the storage of Community Playthings cots only. Other cots may not be compatible.

## Assembly

Your Cot Cart comes in one carton with:

1. 4 casters in an enclosed carton.
2. This Product guide.

To add casters, tip Cot Cart on its side and insert the stem of the casters all the way into the holes.

**If your shipment is incomplete, please call Customer Service.**

## Operation

The easiest way to load the cots is from left to right. However, cots may be added or removed from the cart in any order. Each groove in the base corresponds with a notch in the cross piece. The cot should be fully on the base and in the groove on the cross piece. Properly loaded cots should be straight up and down.

Full size cots and mini cots can be loaded onto the same cart. The full size cots should be loaded first left to right, then the mini cots can be loaded in the remaining spaces.

## Maintenance

Periodically inspect cart for breakage.

Remove the product from use when any condition develops that might make use unsafe.

## Cleaning

Wipe the cart with a damp cloth and a mild detergent. Do not use excessive water.

## Construction

The Cot Cart is made from a durable powder coated tube steel frame, a birch plywood base and molded plastic parts.
