A638 Flow Pan

Recommended Use

Recommended for children ages 1-8.

The flow pan enhances the play value of water play by introducing flow.

⚠ WARNING

This product is intended for use by children of immature judgement therefore supervision is required at all times.

Operation

You can stack the flow pan onto the ledge at the edge of the larger pans. The children can then use the hoses to observe and experiment with flow. The length and diameter of the hoses ensures that most of the water is contained by the larger pan. The flow pan has turned over edges so that you can use it to carry water to and from the sink.

Cleaning

Wash pan with soap or mild detergent and water. Disinfectants can be used. Do not use abrasive cleaners.

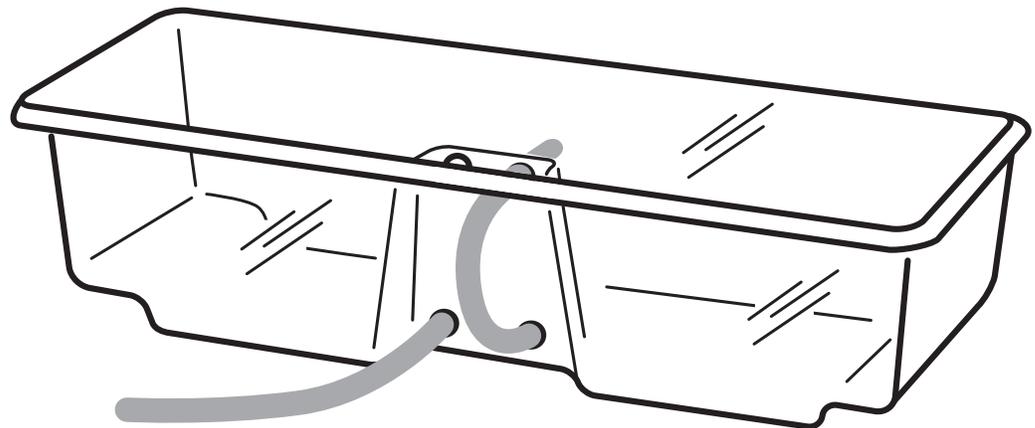

Construction

The pan is of clear PETG. The hose is clear Tygon tubing, plasticizer free, and the fittings are nylon.

Ordering Parts

To order replacement parts, contact Customer Service with a description of the part(s) needed and the ID Code from the product.

Use only replacement parts supplied by Community Playthings.
