### Maintenance

Periodically inspect for cracks, breaks, loose parts, and/or malfunctions. Remove the product from service when any condition develops that might make operation unsafe.

### Construction

Cots are made of sturdy aluminum tubing and polyester. The corners are a molded polypropylene. The Cot Dolly has four 2.5" casters which swivel on ball-bearings and have built-in locking levers.

### Cleaning

Wash with disinfectants or a mild bleach solution. Do not use concentrated bleach or pine oils to clean the cot. These will cause the plastic to disintegrate, or the tubing will give off a black pigment.

### User Modifications

We are not responsible for modifications made by customers to our products in the field, without our supervision, testing or evaluation.
