# G237 Storage Shelf

## Recommended Use

The G237 Storage Shelf is designed for the lockable storage of detergents and other materials associated with the Diaper Changing area.

### ⚠ WARNING

▲ This product is intended for use by children of immature judgement. Supervision is required at all times.

### ⚠ CAUTION

▲ For indoor use only. This product is not water-proof.

▲ Make sure the shelf is sitting securely on the floor.

## Assembly

The carton you received contains the following:

1. Storage Shelf
2. Two Removable Shelves
3. Key
4. This Product Guide

If your shipment is incomplete, please call Customer Service.

## Operation

The Storage Shelf is 21½" deep to accommodate most bulk diapering supplies. The Storage Shelf can be connected to Community Playthings Roomscapes posts, gates, panels, and furniture to restrict access to the changing area.

For more information on the Roomscapes connecting system, see the Roomscapes product guide F601 supplied by Community Playthings with every Roomscapes order, or call Customer Service.

Adjustable Shelving: The supports are numbered to ensure that all corners of the shelf are supported at the same height. Small notches in the bottom of the shelves fit over the supports. This prevents the shelf from falling out if it is accidentally knocked.

Figure A

To adjust the shelf height:

1. Lift the shelf up evenly until it is clear of the plastic supports. (Fig. A)
2. Pull the shelf towards you, right out of the item.
3. Slide the shelf back in at the desired height, until the notches fit over the supports.

The doors have a childproof lock to allow for storage of items that should be inaccessible to children. The lock is operated by turning the latch 90°. A plastic key

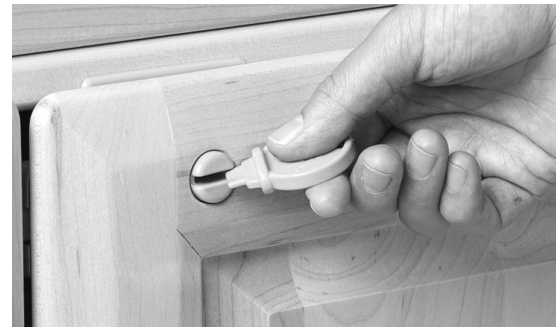

Figure B

is provided for this, although any key, coin, or similar object will work as well. (Fig. B)

## Accessories

The shelf is designed to accommodate 6 Compact Totes [A292].

## Maintenance

Periodically inspect for cracks, breaks, loose parts, missing parts, and/or malfunctions. Remove the product from service when any condition develops that might make use unsafe.

## Cleaning

Clean wooden parts with soap and water. Too much water will harm the finish.

## Construction

This product is made of solid maple with mortise-and-tenon construction. It is finished with a durable non-toxic finish. All corners are rounded for safety and ease of cleaning.

## User Modifications

We are not responsible for modifications made by customers to our products in the field, without our supervision, testing or evaluation.

## Ordering Parts

To order replacement parts, contact Customer Service with a description of the part(s) needed and the ID Code from the product.

**Use only replacement parts supplied by Community Playthings.**
