Refinishing Outlast

Community Playthings Outlast furniture is made with acetylated wood. This nontoxic weatherproof wood turns a natural gray color as it ages. If you prefer the original look, follow the instructions below to re-stain your items, but remember, this is only for aesthetic reasons. Left unfinished, Outlast products will outlast the rest.

1. Scrub items with soapy water to remove dirt. Allow to dry completely before applying stain.

2. Apply stain liberally to wooden parts. (If you get some on the plastic parts, don't worry, just be sure to wipe it off with a damp cloth before the stain dries.)

3. Allow stain to dry for a few minutes before removing extra drips with a dry paper towel.

Stain will be dry to the touch in a couple of hours but it's best to let the stain dry overnight before continuing to play with your items.

(Hint: Work outside in the shade to minimize cleanup. Wear gloves and old clothing as stain is difficult to remove from clothing, but will eventually wear off skin)

To purchase a can of Outlast refinishing stain contact your customer service representative at 800-777-4244 or sales@communityplaythings.com
